

FIFA 22 delivers a deeper and more realistic football experience than ever before. Highlights include: A real-life player simulation system that delivers a powerful multiplayer game with true-to-life physics, player shape and weight, and a range of unpredictable player reactions. Improved ball-to-player connections for more precise ball handling and more realistic player movement. Faster and more realistic player movements with true-to-life animations. New gameplay features that make for more explosive and tactical moments. World-class FIFA Ultimate Team (FUT) with a new "Create a Club" mode that lets players invent and design their own FUT team. Players can create their own players from scratch, and customize them with custom kits, physical appearance, real-life stats and more. New features for gameplay across all sports. Key Features: New Player Simulation System: FIFA 22 delivers a deeper and more realistic football experience than ever before. Compared with previous versions, the player simulation system improves responsiveness, weight, and player shape to deliver a more powerful multiplayer game. Global Player Instinct: FIFA 22 brings new player movements and animations to get players closer to the action and for players to feel more natural in their movements and more connected to their teammates, and to the game. New Visual Effects: FIFA 22 delivers more realistic visual effects. The goalkeepers and defenders react to passes and shots, and take greater control of the match. The ball has a more realistic shape, and players are closer to the ball and react to take tight angles and passes from around the defender. 2D Graphics with Triple GPU Processing: In FIFA 22, the core engine includes 30 of the most detailed stadiums, over 60 licensed teams and over 140 player models, from stars to the lowliest amateur. FIFA 22 also features Dynamic Lighting and Bloom to bring the gameplay to life. Improved 3D Player Tracking: FIFA 22 features more realistic player shapes and motions, including improved player tracking. Player tracking improves the responsiveness and the realistic movement of players in all areas of the field and also improves player to ball connection and ball-to-player movement accuracy. In FIFA 22, gameplay is also more realistic and quick-paced because the animations of players are more accurate and realistic. Improved Physics Technology and Real Ball: FIFA

#### **What's new in Fifa 22:**

- FIFA 22 introduces "HyperMotion Technology," which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay.
- FIFA 22 introduces a number of changes to the way you manage and develop your club. Players can now be licensed as a youth product at the beginning of their career and change their position throughout their pro life.
- Added more fan engagement by allowing others to make your custom shirts, which you can then download in-game.
- FIFA Ultimate Team allows you to build and trade your club's squad to create the best team possible.
- Introduces an in-game transfer market with the ability to pay 5X, 5Y and 10Y and get-out-of-contract bonuses.
- FIFA 22 has a new Pro-Voice mod, with the ability to change the voice of your Pro, as well as their playing style, using gameplay recordings.
- Recovery bonuses, which allow you to recover up to three players at a time and play how you know them best.
- Creator modes to further immerse yourself in FIFA. You can make your very own stadium with Freekick Stadium Maker, then customise your stadium by making all the plastic seats and other sponsor cuts and stickers.

FIFA is the world's leading sports video game series, featuring real-life players for every real-life position, complete with authentic physiography and gameplay. Players can now customize their in-game performance by mastering every aspect of the game to elevate their team to glory like never before in FIFA 20. The series has produced more than 100 million players and sold over 125 million copies worldwide, including global and commercial milestones for EA SPORTS. Powered by Football™ EA SPORTS is dedicated to bringing the high-fidelity authenticity of the real thing to FIFA. Today's and tomorrow's stars play and train like the pros, and natural-feeling controls ensure you feel the difference on the pitch. The Power of Analytics We've built a data-driven AI engine to give you real-time insights and feedback, while new functions like real-time Match Analysis, Real-Time Injury and Goalkeeper Analysis provide detailed stats that will help you make better decisions throughout the match. Improved Progression FIFA 20 always left you wanting more in terms of player progression, but we've added new ways to customize your club's career. As you progress in your career, you can now earn special attributes and trait-based gameplay unlocks, expand your club with new facilities and player contracts, and continue your legacy. New Pitches and Stadiums FIFA 20 was the first to bring all of Europe and North America's 32 top leagues to the pitch. Now, stadiums and pitches from 100 leagues from all over the world will be added to FIFA, including the 23 new leagues added to FIFA Ultimate Team in FIFA 21. FIFA's New Story Mode The 25th season of FIFA has arrived and it's time to choose your path. The choices you make will determine the legacy of the new Queen of Europe, who will lead your nation in either The Journey or The Quest. FIFA Ultimate Team Unlock FIFA's immense range of real-life players and take on your friends with the all-new UEFA Champions League, UCL Fantasy, and FIFA Ultimate Team modes. New Passes & Skills EA SPORTS' FIFA specialists have added 15 new pass and skill animations to FIFA 22. Passes now react with animation and behaviour as you run towards or away from your teammate, pass, or receive the ball. New Skills bring devastating finishing moves to the pitch, with the ability to throw or trap the ball into the air. Players can
